COMPANY OVERVIEW

Blue Leaf Technologies, Inc. is a small business delivering mission-critical technology and advisory services to Federal Civilian and Defense agencies. Headquartered in Virginia, we combine deep subject matter expertise with proven delivery frameworks to help agencies modernize operations, leverage emerging technologies, and achieve measurable outcomes at speed and scale.

CORE CAPABILITIES

01 Artificial Intelligence & ML

AI strategy & governance · ML model development · NLP & computer vision · generative AI (LLMs, RAG) · responsible AI · ATO support

02 Data Transformation & Modernization

Data strategy & governance · legacy migration & ETL · MDM & data quality · BI dashboards (Power BI, Tableau) · DataOps & MLOps

03 Cloud & IT Modernization

Cloud migration (AWS GovCloud, Azure Gov, GCP) · DevSecOps · Zero Trust · Infrastructure as Code · FedRAMP authorization

04 Strategic Consulting & PM

IT strategic planning · program & project management (PMP, SAFe) · Earned Value Management · acquisition support (PWS/SOW) · executive advisory

05 Org Readiness & Workforce Transformation

Operating model & org design · workforce transformation & upskilling · AI workforce readiness & governance · reorganization & integration · succession & continuity · capability architecture

06 Operating-Model Redesign & AI Value

Operating-model redesign · AI value realization · legacy system & report consolidation · business-case baselining & benefits tracking · shared-services stand-up · case-processing efficiency

WHY BLUE LEAF

+ Mission-First Approach — every engagement aligned to agency mission outcomes, not just technical deliverables
+ Cleared & Compliant — personnel with active clearances; FedRAMP, FISMA, NIST 800-53, and CMMC-ready delivery
+ Proven Methodologies — delivery grounded in SAFe Agile, PMI PMBOK, and ITIL, tailored to federal acquisition
+ Rapid Deployment — established contract vehicles and bench-ready talent enable onboarding with minimal ramp time
+ Committed to Small Business Ecosystem — active teaming partner for large primes and a proven prime
